Online ISA Major Course Availability

This diagram shows the Information Security & Assurance Major courses that are available online. This listing is not a substitute for the Information Security & Assurance Major Worksheets located here through Academic Advising, which cover all requirements for the BBA degree in Information Security & Assurance. Additional requirements also include Business Electives/Non-Business Electives.

The courses designated as being online below will be offered in an online format regularly, but not necessary every semester. Please consult the KSU Course Registration System for availability.

Gold courses are available Online, Black courses are not yet available online. Burgundy courses are under development for online.
