Milestones: All courses indicated as a Milestone with this icon should be completed in the term suggest to prevent delays in program completion.

Disclaimer: An academic map is a suggested four-year schedule of courses based on degree requirements in the KSU undergraduate catalog. This sample schedule serves as a general guideline to help build a full schedule each term. Milestones, courses, and special requirements necessary for timely progress to complete a major are designated to keep you on track to graduate in four years. Missing milestones could delay your program. Enrolled Students should reference DegreeWorks and not this plan.

This map is not a substitute for academic advisement-contact your advisor if you have any questions about scheduling or about your degree requirements. Also see the current undergraduate catalog (catalog.kennesaw.edu) for a complete list of requirements and electives. Note: Requirements are continually under revision, and there is no guarantee they will not be changed or revoked; contact the department and/or program area for current information.

You may choose to attend a summer term to reduce your load during fall or spring terms but still stay on track to graduate in four years.
