The Bagwell Center for the Study of Markets and Economic Opportunity’s Undergraduate Research Fellowship is a one-year fellowship that is open to undergraduate students from any discipline or program across Kennesaw State University’s campuses. Working closely with a designated faculty advisor, fellows will write an original research paper that engages the academic conversation about the impact of markets on society, which will ultimately be suitable for publication on the Bagwell Center’s website. In addition to the paper, fellows are also expected to present their original research at an on-campus symposium during the spring 2021 semester.

Funding: up to $1,200 over the course of the fellowship
